## Vacancie profile and surface grinder

Heesch: 2 februari 2023

Page: 1 of 2

### Your job:

As a professional specialist, you will work independently with the production of precision work, especially single pieces and small series. With a wide variety of products and materials, such as carbide, ceramics and different types of steel, every day is a challenge. Not ready yet, but motivated? Then we would be happy to train you internally. You work in a small close-knit team, with short informal lines.

As a professional specialist, you will work independently with the production of precision work, especially single pieces and small series. With a diversity of products and materials, such as carbide, ceramics and different types of steel, there is a challenge every day.

### Your work will consist of:

- Determining the correct set-up, choosing the right sharpening stones.
- Measuring and checking the products you made.
- Finishing and deburring products.
- Thinking along in optimizing the production process Consider, for example, clamping jigs.

### We expect:

- You can work very accurately and preferably completely independently.
- You can work in a small team.
- Has good knowledge of materials.
- **Apprentice grinders or school leavers can also respond. We are happy to train you internally.**

### What do we offer?

- An excellent salary well above the collective labor agreement, depending on age and experience.
- Good fringe benefits.
- Very varied, interesting and high-quality work.
- Opportunities to follow courses to increase professional knowledge.
